I’ve Got iPads…. Now What?

In This Session We Will Discuss:

Management
• Leveraging restrictions and guided access to manage devices.
• Classroom management strategies.
• App Sharing

Set-Up
• Device Management and set-up in a 5/room, cart, and 1:1 environment.
• Using Folders, lock screen, naming, etc.

Content Sharing
• Using an LMS
• Sharing device Created Content

Multi-App Creation
• Using non-content specific apps together for student demonstration of learning.

Apps to Install:

Ask 3
Paper by 53
Pic Collage
Fotopedia
Skitch
Evernote

**iManagement**

**Set Clear Expectations**
- Create class rules
- Communicate expectations at the beginning of every activity

**Let Go!**
- Allow your students to be creative
- Be a facilitator or learning coach

**Differentiate the task**
- Give choice when asking students to demonstrate learning

**Assign Group Roles**
- Encourage collaboration
- Brainstorm, type, take photos, present, etc

**Require Mandatory Engagement**
- Create
- Submit, share, present
- Set a timer

**Teach Responsibility**
- Let students USE THE TECHNOLOGY

**Use Guided Access and Restrictions**
- Turn off Safari, Camera, Installing/ deleting apps
- Lock students on an app, document, website

**Create Folders**
Tap and hold an app until it starts to jiggle. Drag the app over another icon and release.

**Access all Running Apps**
Double-clicking the Home button shows all the apps that are running in a bar along the bottom of the screen. Tap and hold until the apps jiggle and a red circle with a white minus sign appears. Tap the red circle to close the app.

**Orientation Lock**
Double-click the home button to open the task bar. Swipe the bar to the right. Tap the icon with the circle arrow to lock the screen orientation.

**Control iPad Notifications**
Settings > notifications. Decide which apps benefit the class with pop up alerts. Notifications can be a distraction to students.

**Move Curser**
Tap and hold to see a magnifying glass. Slowly move your finger to where you want the curser. Lift your finger.

**Take a Screenshot**
Press the power and home buttons simultaneously. Let go.

**Turn Caps Lock On**
Tap the shift key, then the letter. For caps lock, double tap the shift key. It will turn solid blue.

**Copy and Paste**
Tap, hold down, and release. Tap Copy. Repeat. Paste.

**Define it**
Select a word by tapping and holding. Tap Define.
